# How to Play

## What is Bingo?

Bingo is a fun, social game of chance that's easy to learn and exciting to play. Here's everything you need to know to get started.

## Print Your Cards:

Each card contains 25 squares arranged in a 5x5 grid. The center square is typically marked "FREE" and counts as filled. The columns are labeled B-I-N-G-O, with each column containing numbers from specific ranges:

- B column: 1-15
- I column: 16-30
- N column: 31-45
- G column: 46-60
- O column: 61-75

## Choose a Dauber / Marker:

Use chips, coins, pens, highlighters or bingo daubers to mark called numbers on your cards.

## How to Play:

Choose one card per game. Make a note of what pattern is needed to win this game (it could be a straight line, diagonal, or a symbol). Listen for the caller in the YouTube Video or check the Bingo Ballers screen to see the last called ball. \*Remember "hard way" means the free space does not count.

## Mark your Numbers:

When a number is called, check all your cards. If you have that number, mark it immediately. The caller will typically say both the letter and number (like "B-7" or "O-64").

## How to Win:

Have all the numbers marked within the desired shape or design for each game. Let's see if YOU would've beat the players at the casino!
